Dajin, is an early stage Lithium exploration company. Through its interest in Dajin Resources S.A. (“Dajin S.A.”), it holds concessions or concession applications in Jujuy Province, Argentina that were acquired in regions known to contain brines with Lithium, Potassium and Boron values. These land holdings exceed 93,000 hectares (230,000 acres) and are primarily located in the Salinas Grandes and Guayatayoc salt lake basins. Dajin S.A. is partnered with LSC Lithium Corporation (“LSC”) who holds a 51% interest in Dajin S.A.’s Lithium properties in Argentina and has agreed to spend CDN\$2,000,000 on the properties to complete the 51% purchase. The Cooperativa San José recently received exploration permits for a portion of the land package now part of the earn-in agreement with LSC. Exploration of the 4,300 hectares (10,625 acres) San José – Navidad minas is commencing under the management of LSC, the operator of the earn-in agreement.
