Trump really got elected?!? Wait. What? Shouldn't he be great for business? All the regulations are going into the shredder! All those tax inversions are going to be reverted! The US is going to be swimming in money and jobs! Buy the dollar! Buy oil! Buy stocks. Just get in there, Wilson, and buy!

You know, now that we've had some time to think about it, it is not very likely that all those changes are going to come about in the near future, if at all. And that tone that he is taking with China can't be good in the long term for global trade. Maybe it is a better idea to wait and see if Trump at least gets some of his appointees through before we jump in with both feet...

Welcome to the new reality. Safety is not guaranteed.
